## Business Benefits

- ▶ Design sites that drive clients to your business
- ▶ Flexible to meet your changing business demands
- ▶ Forward looking to ensure long-term operational effectiveness
- ▶ We are your trusted guide to help you make effective technology decisions
- ▶ Developed from careful planning, each site we build is unique from the ground up

## Web Design

The Trilogy Networks Web Design division believes that your website is more than a collection of pages. It's a tool that represents your brand, services, and business objectives to the world.

### Experience

Our team has previously worked with such clients as

- ▶ buy.com
- ▶ WellsFargo.com
- ▶ boats.com
- ▶ ATT.com
- ▶ Gateway.com
- ▶ Qwest.com
- ▶ Sephora.com

Our design experience keeps download times short ensuring that viewers remain at your site

Using the latest tools in technology and design, we pride ourselves on exceeding your expectations

We design and build with standards simplifying and lowering the cost of production, while delivering sites that are accessible to more people and more types of Internet devices

Our design process is a rapid, iterative process

By melding an in-depth analysis of customer needs with overall brand and business goals, Trilogy creates the fundamental framework for effective online applications

We look beyond traditional business strategy to include brand experience and technology expertise

### Results

Your design solution will be unique, separating you from your competitors

Your site is developed from a persuasive perspective identifying ways to remove barriers preventing user interaction

You can be assured that we will deliver a Web Design solution that meets your business objectives

You will have an innovative solution that keeps users coming back again and again

Once your design implementation is complete, we will provide long-term support to keep your site fresh and aligned with business goals
